### CNC Operator Wanted

- We are looking for a competent CNC Operator to use computer numerically controlled (CNC) machinery safely and accurately to perform a variety of functions. Your job is important since some materials are not easy to shape or handle manually or with conventional equipment. Must be able to work with great concentration and precision and comply with all safety guidelines. A keen eye for detail and great mechanical aptitude are also essential.
- Responsibilities**
- Prepare and operate CNC machines to perform tasks such as drilling, grinding, milling etc.
  - Understand specifications of the task at hand and the desired result by reading blueprints, mechanical drawings etc.
  - Translate instructions into computer commands so the machines can perform the correct function.
  - Prepare and load raw materials and parts onto the machines.
  - Prepare a test run to check if the machines produce outputs according to specifications.
  - Set machines to complete full cycles to fabricate large number of parts.
  - Supervise the machines while they execute the tasks and make any necessary adjustments to produce a better result.
  - Inspect and measure finished products and compare them with requirements to determine if the process has been completed properly.
  - Check and maintain machinery daily to ensure functionality.
- Requirements and skills**
- Proven experience as CNC operator.
  - Ability to communicate with Technical Support in China.
  - Skill in operating CNC machinery and tooling as well as precision measurement tools.
  - Ability to read and interpret mechanical documents and drawings.
  - Computer savvy with basic understanding of computer programming and CAD/CAM.
  - Mechanical aptitude and good math skills.
  - A keen eye for detail and results-driven approach.
  - Good communication abilities.
  - Certificate or diploma in engineering or relevant discipline is a plus.
